Seminar objectives

To create exceptional value, organizations invest in the three roles their talent reprises: Thinking, Doing and Connecting. And to elevate the level of Thinking, it is most effective to create a systematic program coordinated with the different levels of contribution of the employees. **Sansi, 三思**, is such a structured program that develops leadership thinking in three progressive stages of Thinking: Logical, Lateral and Strategic. Join us and talent coach Chet Choon to learn more about this powerful approach and how it has transformed the Leadership Thinking among global MNCs in Japan, ASEAN and Australia.

Seminar Content

- From Analytical Thinking to Zero-based Thinking
- Optimizing with Logical (2D) Thinking
- Reframing with Lateral (3D) Thinking
- Futureproofing with Strategic (4D) Thinking
- From Thinking to Advocacy- Influencing in the Boardroom presentation
